

CONTEMP

CONCRETE TEMPERATURE MONITORING

1. Set Alarms at app contemp.ca

2. Install & Pour

3. View Results

FEATURES

- Email, Phone call / text notification to unlimited users
- No subscriptions fees for connectivity and software
- LTE-M & 2G Cellular Connection (No Base Stations)
- Low Cost Sensors
- Locate device with Geo Tagging feature
- *Extension Cable Available (Max Length 9m)
- API Access and Data Security

Ambient Temperature sensor

Silicone Shock Absorber and Weather Protector Cover

2 x Digital Accurate Sacrificial Sensor +/- (0.5°C)

Waterproof Connector

Operating Temperature:

-25°C to 80°C. (Inquire for extreme weather accessories)

Max Temperature Measurement Range:

-55°C to +125°C

Temp Accuracy of Logger:

Sensors are digital. Data logger and extension cable length has no effect on the accuracy.

Temp Accuracy of Sensor:

±0.5°C (NIST Traceable calibration tested sensors would be available with extra cost)

Temp Resolution:

0.1°

Measurement Rate Options:

1 to 120 minutes

Power:

9900 mAh internal rechargeable battery /
USBC external power supply

*If using extensions the same length must be used on each channel
